

# Peoria Energy Efficiency Workforce Initiative

## About the Initiative

Ameren Illinois Energy Efficiency Programs, in partnership with the Smart Energy Design Assistance Center (SEDAC) and Solutions for Energy Efficient Logistics (SEEL), is piloting an Energy Efficiency Workforce Initiative to grow and diversify the energy efficiency workforce in Peoria. This initiative focuses on jobs that provide products and services to improve the energy efficiency of homes and buildings.

**With your help we will place 15 qualified people in energy efficiency jobs and 15 people in energy efficiency training programs by the end of 2021. We'll do this by strengthening connections among employers, training programs, community organizations, and job seekers, and by offering support services tailored to your needs.**

## How can I participate?

**Energy efficiency employers:** Share current job openings to receive support finding qualified applicants. Attend a roundtable discussion to communicate skill needs.

**Educators:** Share information about your training program to receive support recruiting students. Attend a roundtable discussion to learn about job openings and skill needs. Direct your students to jobs and internships.

**Community-based organizations:** Identify job seekers who may be interested in energy efficiency jobs and training. Provide information about support services for job seekers.

**Students, job seekers:** Find out how energy efficiency jobs align with your skills and interests. Participate in training programs and apply for jobs.

Click on our [engagement form](#) to post job openings, connect with us, and learn more.

## How will this initiative support you?

### Energy Efficiency Employers

- We'll post your job openings to our jobs board and share them with our network
- We'll direct job candidates to job openings, providing support to help candidates overcome employment barriers and training gaps
- We'll recommend customized solutions to fill skill and training gaps, based on your needs

### Educators

- We'll promote your training program among employers, students and job seekers
- We'll help connect your students to available jobs and internships
- We'll provide support to fill skill and training gaps, identified by employers

### Students & Job Seekers

- We'll help you land an energy efficiency job
- We'll connect you to training programs to develop the skills you need to succeed
- We'll provide connections to community resources to help you overcome barriers to employment

### Community & Workforce Orgs

- We'll help the people you serve find employment in energy efficiency
- We'll raise awareness of career pathways in energy efficiency
- We'll connect job seekers to your services to help them overcome employment barriers

**First step: Contact us!**  
**We'll take care of the rest**
