

Ameren Illinois Energy Efficiency Workforce Initiative

How can we help you get a job in energy efficiency?

- We'll help you explore career pathways in energy efficiency that match your skills and interests
- We'll help you find training or employment in energy efficiency, providing support in the application process
- We'll connect you to one-on-one coaching to assist with training and career development
- We'll provide financial assistance for transportation, shelter, childcare, and other support to help you along your journey towards an energy efficiency job

What does the process look like?

Introduction	Menu of Services	Make a Plan	Follow Up Support
 <p>We will schedule an introductory meeting to get to know you.</p> <ul style="list-style-type: none"> - Phone, video conference, or in-person introduction - Share your interests, experience and skills - Learn about potential energy efficiency career opportunities - Discuss any barriers to employment 	 <p>We will provide a menu of services, tailored to your needs & interests.</p> <ul style="list-style-type: none"> - Opportunities for energy efficiency career exploration - Connections to training programs - Available job openings - Other services such as tuition assistance, transportation vouchers, etc. 	 <p>We will meet with you to review the menu of services and identify next steps.</p> <ul style="list-style-type: none"> - Map out next steps along career path - Determine need for job readiness programs or services - Refer to job openings or training programs 	 <p>We will follow up with you weekly to provide support as next steps are taken.</p>
